Data-driven topics vs. survey taxonomy
neural, neural networks, networks (n=22)
anomaly, detection, anomaly detection (n=38)
scene, driving, autonomous (n=19)
ood, detection, outofdistribution (n=17)
corner, corner cases, cases (n=12)
testing, scenarios, driving (n=16)
scenarios, driving, safetycritical (n=29)
safety, traffic, automated (n=34)
automated, scenario, driving (n=39)
